Notice of Temporary Closure of Guest Parking

Construction Period — Guest Parking Unavailable

Monday, August 31 through Sunday, September 13 — All Day

Due to the replacement of the fire protection equipment (foam fire suppression system deluge valve) located in the Level 2 parking area, the Level 2 guest parking area will be closed throughout the above-mentioned period. Please be advised that the guest parking area will not be available at all during the construction period. We kindly ask fitness club members and their guests to use the Market Scene underground parking garage or other nearby paid parking facilities during this period.

Use of the Market Scene Underground Parking Garage

■The underground parking garage is available from 8:00 a.m. to 10:30 p.m.

Please note that vehicles cannot exit the garage after 10:30 p.m. Please plan accordingly.

Outside the available hours of the Market Scene underground parking garage, please use nearby paid parking facilities.

■Members using the Market Scene underground parking garage may receive a complimentary parking ticket at the fitness club front desk.

Please bring the parking ticket issued by the parking machine to the front desk.

■The complimentary parking ticket will cover only the duration of your fitness club visit.

■Please note that the company assumes no responsibility for any accidents or other incidents occurring within the Market Scene underground parking garage.

Additional Important Information

●Work Hours and Traffic Through the Parking Area

Replacement work, including the use of stepladders and ladders by workers to replace equipment located near the ceiling, will be carried out primarily between 10:00 p.m. and 5:00 a.m.

Vehicles will still be able to pass through the parking area during these hours. However, for safety reasons, we kindly ask that you avoid using your vehicle in the parking area during these hours whenever possible.

Security personnel will be stationed near the work areas while construction is underway. When passing through the area, please follow their instructions. You may be asked to stop temporarily, take a detour, or wait until it is safe to proceed.

●No Parking Near the Entrance

Due to the closure of the guest parking area, we apologize for the inconvenience; however, parking is strictly prohibited on or near the roadway in front of the 1st-floor Grand Entrance, even temporarily or for a short period of time.

This area must remain clear to allow moving vehicles, delivery vehicles, taxis, and other traffic to pass safely and without obstruction.

●Future Construction Schedule

This project is part of a comprehensive renewal of the fire protection equipment throughout the entire parking facility.

The sections not covered by this construction phase are also scheduled to be renewed sequentially every six

months to one year.

We sincerely apologize for any inconvenience this may cause and greatly appreciate your understanding and cooperation.
